REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Atkinson:

It is with pleasure that I submit my annual report as Superintendent of Schools. This report deals with the Atkinson Schools for the school year July 1, 1943 to June 30, 1944. The School Nurse and the Supervisor of Music have given me brief reports of their work; which I transmit herewith, with the hope that they will be carefully read by many others besides the School Board.

As in the past, I am presenting much information about our schools in the form of statistics which, if carefully read in conjunction with other information furnished by the District Treasurer and by the School Board in their reports, will give a clear picture of the size, cost, and many other details of the schools.

Mrs. Elizabeth McAnally resigned her position as teacher in the primary room at Christmas time. The vacancy was filled by the appointment of Mrs. Alice Scott. Vacancies in the future will be difficult to fill, since almost no men and a greatly reduced number of women are being prepared for teaching at teacher's colleges. We as citizens owe our gratitude to the teachers who have remained loyal to their profession of teaching. These teachers are protecting our social structure from danger. What our civilization will be tomorrow, depends in large measure upon giving the right kind of training to the children of today.

From that viewpoint of administration the classroom teacher becomes a most vital cog in the wheels of education. Anything which obtains, keeps and gives consideration to a good teaching staff is money, time, and effort spent to the best advantage. The pupils and through them, the parents and society itself are the direct as well as the ultimate gainers. The taxpayers of Atkinson have wisely provided the increases in salaries recommended in the past and I hope the proposals of this year will likewise be adopted.

The enrollment last year, as will be seen by the table at the end of the report was 65 as compared with 60 the year before. The school attendance averaged 91.78 percent of the membership

as compared with the state average of 93.12 percent.

Six boys and girls completed the work of the eighth grade last June. All of these entered the Academy this year.

Sometime during the year and preferably about the middle, it is necessary to check the progress made by the different grades. That can most accurately be done by using standard tests to measure our accomplishment. Such a testing program is used each year in grades one to eight inclusive and helps us to know more definitely the progress made. The results of these tests can be of great assistance as we attempt to meet the needs of every child.

Teachers and pupils have co-operated in a commendable manner to meet the increased demands of war and have aimed to prepare the students for the peace which will follow. Demands for assistance in the war effort have been efficiently and cheerfully met. These include selling war stamps each week, Red Cross activity, paper salvage, and gathering milkweed pods. The children gathered 20 bushel bags of pods which was sold to our government for use in making life preservers. The floss is being used to replace Kapok which can no longer be obtained from the South Pacific.

Since the business of education is the most important single undertaking of any community, it is highly desirable that pupils get the most out of the public investment in their future. Loss of school time causes corresponding loss to the individual because make-up work is seldom as valuable as work done in class and in the regular course of events. We ought not to allow unnecessary absence to rob a child of his full educational opportunity. Furthermore both absence and tardiness strongly shape a pupil's attitude towards his school. They also are a powerful influence in forming habits that will be carried into adult life. Mrs. Soule, School Nurse, has been very active in investigating problems of illness.

In conclusion I wish to express my appreciation for the fine co-operation and support of the School Board, townspeople, parents, teachers, and pupils during the year.

Respectfully submitted,

WILLIAM J. NELSON,

Superintendent of Schools.

REPORT OF SUPERVISOR OF MUSIC

To Mr. William J. Nelson, Superintendent of Schools:

I hereby submit my annual report as Supervisor of Music in the Atkinson Schools.

"Sing Along" a book for upper grades from The World of Music was added at the beginning of the school year. The World of Music is a new and attractive course, which deals with music problems through charming song material.

In the annual reports I have more than once given the aims of the work in detail; this year I will give a quotation from an outline of our series of text books; we seek "to develop power and enthusiasm in participation and enjoyment in listening."

Hollywood Extra an operetta by Charles Wakefield Cadman was presented by the students of the Academy assisted by the Grammar School pupils in February.

For your co-operation and that of the teachers, I am most grateful.

Respectfully submitted,

EVA W. THOMPSON.

Another Enemy to Conquer

Here is a home front fight that everyone can get into. Last year in this State 558 brush and forest fires burned over 4,648 acres of land, of which 2,788 acres were valuable timber and young growth. With available manpower the lowest of any year since the war started, you can help to keep this loss down by preventing these fires from starting.

Keep in mind these simple rules:

1. Always get a permit from your forest fire warden before starting any fires in the open. Burning under certain conditions is permitted.
2. Never burn unless you have enough help to control your fire—a permit does not excuse you of negligence in case it gets away.
3. Always report any uncontrolled fire promptly to your forest fire warden. Minutes lost are acres lost.
4. Be especially careful with cigarettes, matches and pipes. Smokers caused most of our fires.
5. Never leave a fire unless it is dead out. You can't feel safe while there is a spark left.
